

# The Evolving Digital Identity Landscape

# Travis Jarae

CEO  
Liminal

# Our perspective is rooted in the digital identity lifecycle

Rising consumer UX expectations, ongoing data breaches and global regulatory scrutiny are driving the need for privacy-preserving reusable digital identities, anchored increasingly on the needs of the consumer, and not the enterprise.

# Digital Identity **Landscape** 2023

# A Liminal Landscape is a tool for creative exploration and decision-making

## Landscape Process

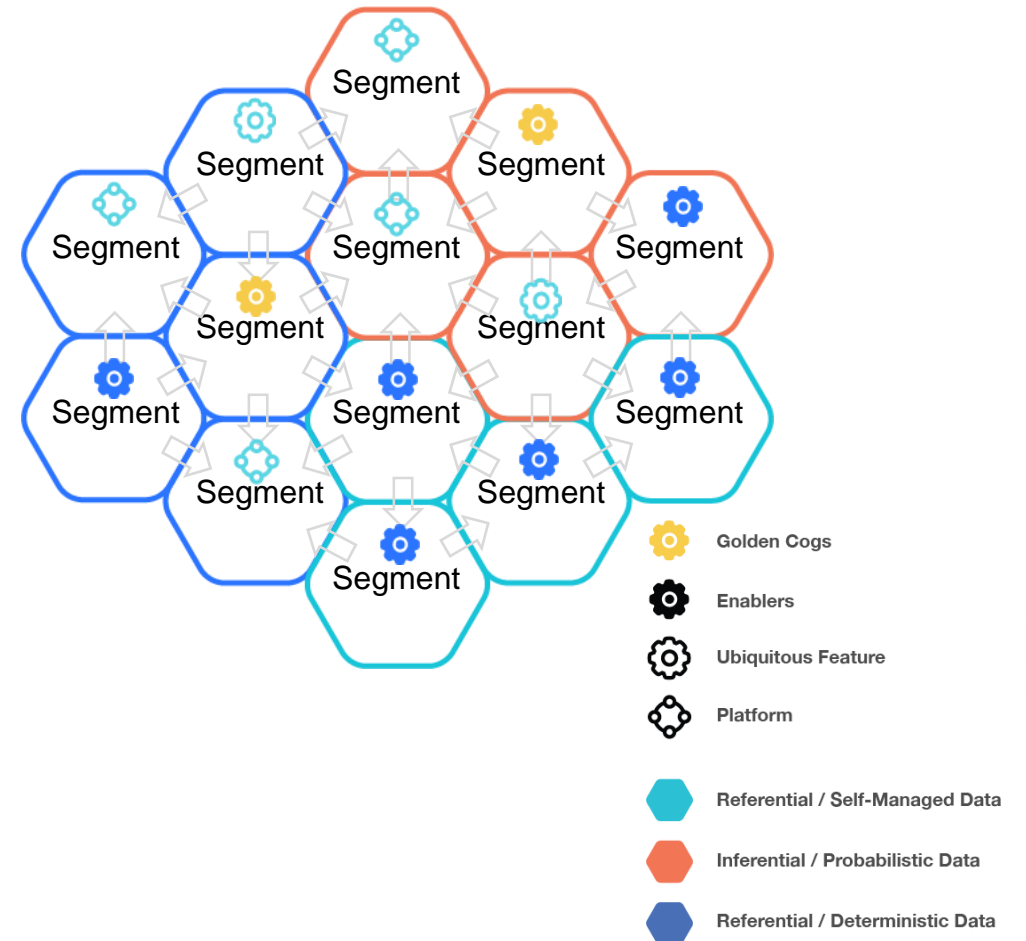

1. Define the landscape
2. Discover dominating forces
3. Measure relational value

# A Liminal Landscape is a tool for creative exploration and decision-making

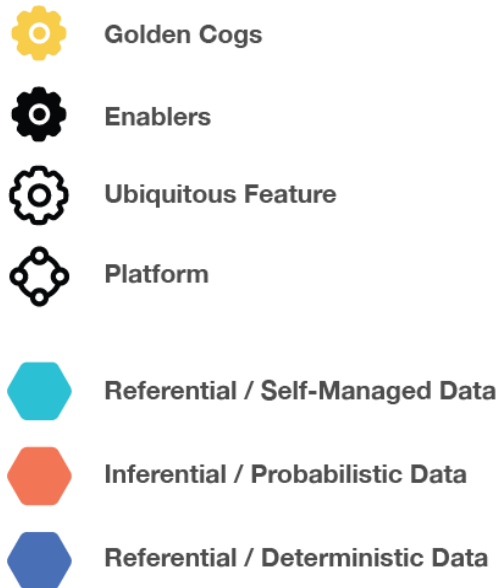

## Landscape Process

4. Identify segment types
5. Measure solution segment influence
6. Identify the Golden Cogs

# Trend 1: Passwordless

FIDO2 is accelerating passwordless authentication adoption

Passwordless authentication reduces fraud risk

SMS OTP volumes will be impacted

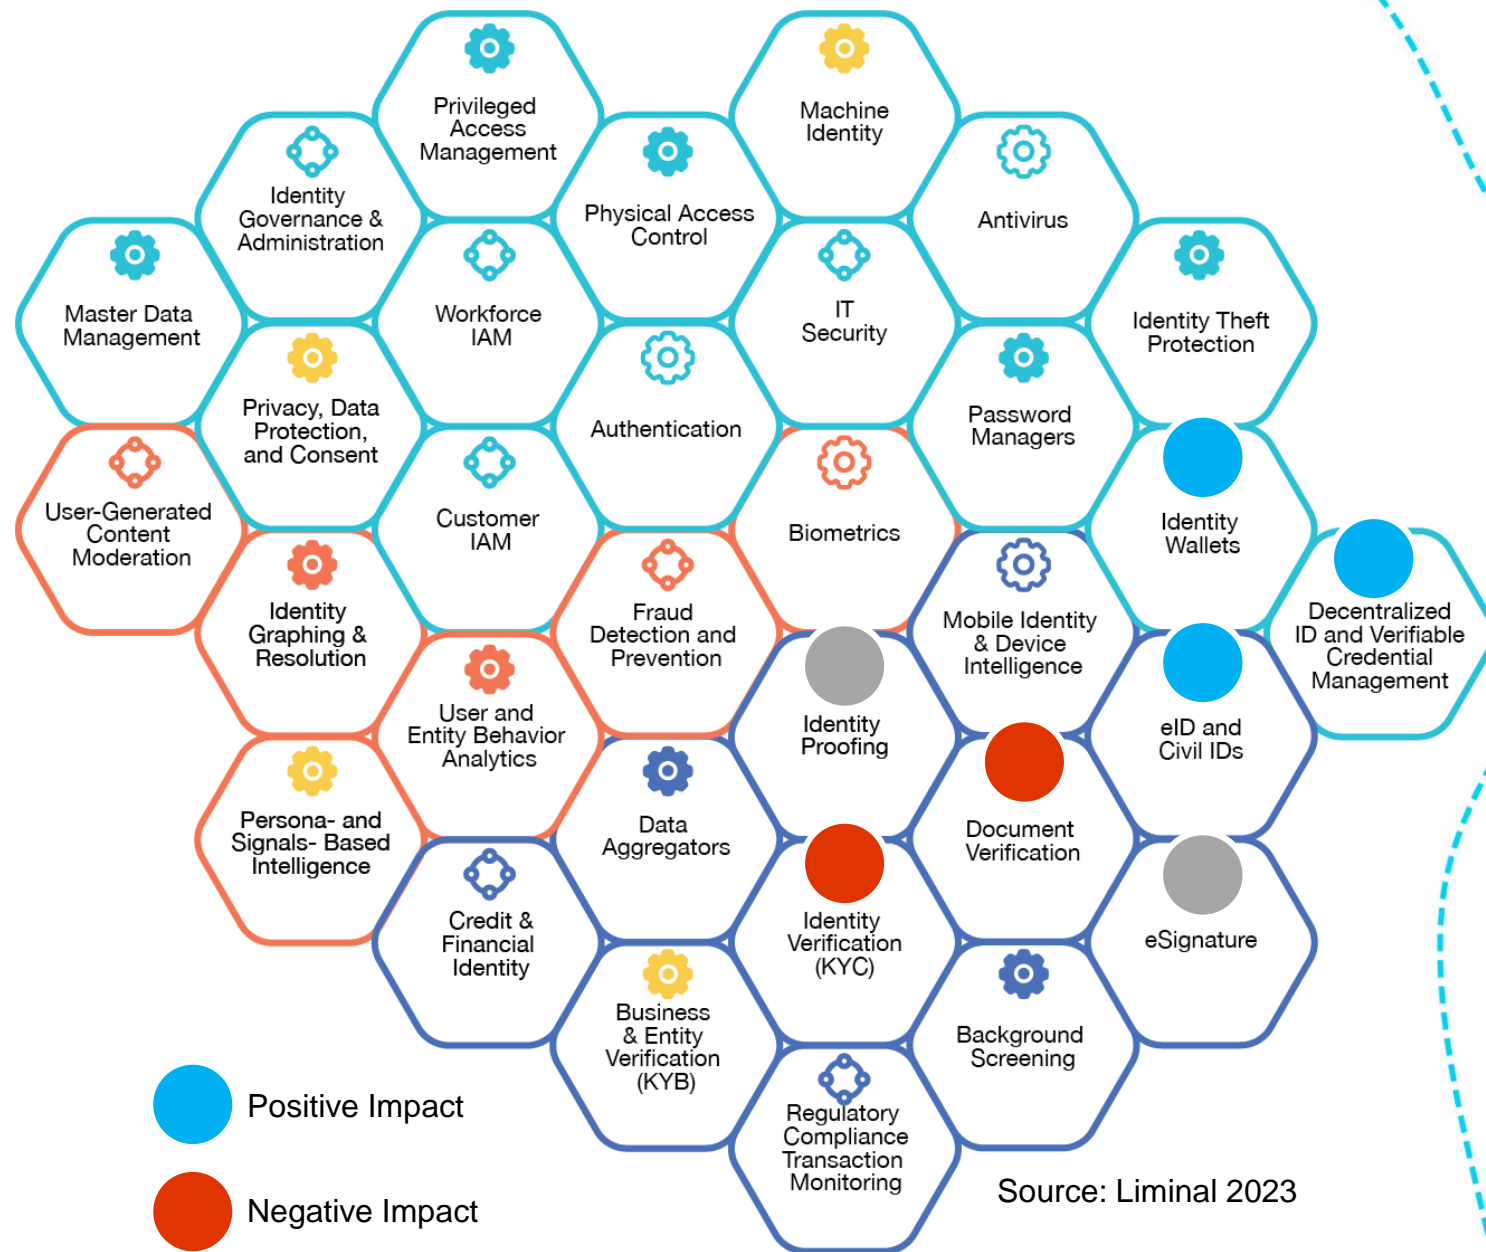

## Trend 2: Rise of eIDs

Long-term demand is strong for secure reusable identity

Europe is leading the way with 22 eID schemes active

The private sector should focus on interoperability

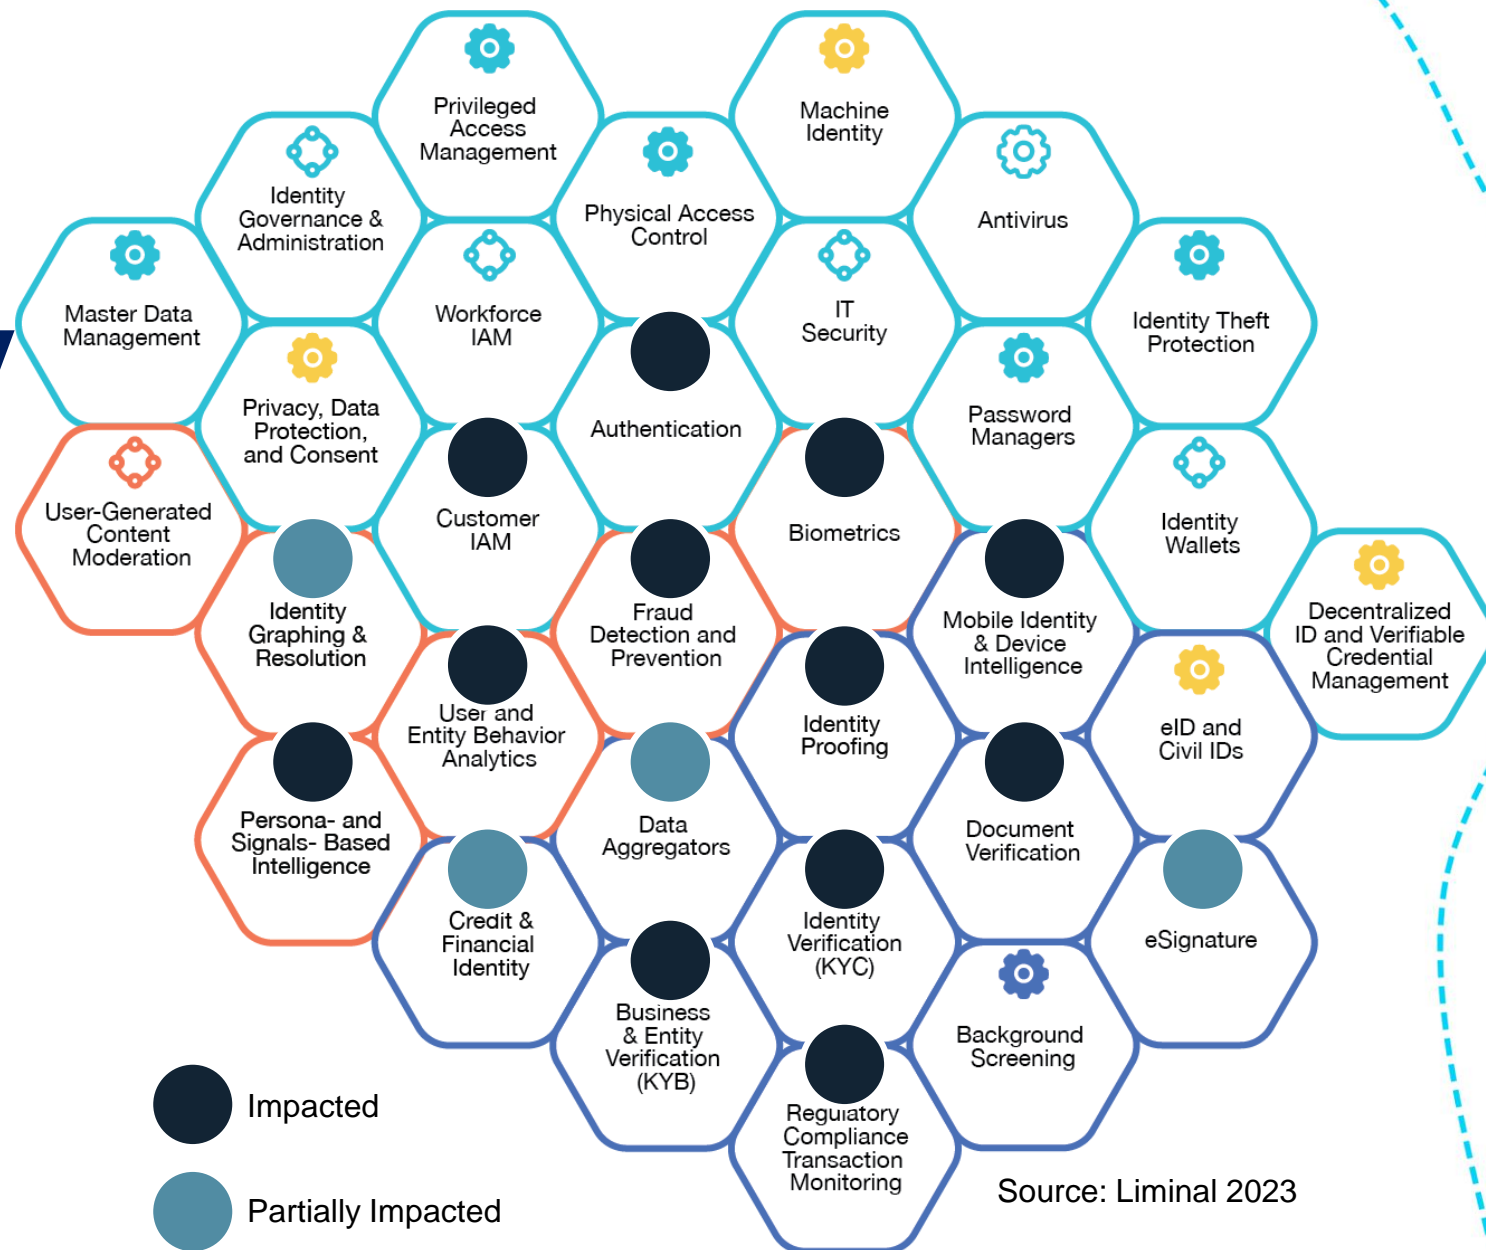

Source: Liminal 2023

# Trend 3: Integrated Identity Platforms

Customers demand solutions  
that cater to the entire lifecycle

Enabling solutions find more  
success selling through channel

Market forces are driving  
consolidation
